## Software Engineer (Mern Stack)

Lahore, Pakistan • +923153316135 • tayyabejaz971@gmail.com • <https://www.linkedin.com/in/tayyab-ejaz-b09839216/> • <https://portfolio-tayyab.vercel.app> (projects in the portfolio)

To leverage my 4 years of experience in full stack development to contribute to a dynamic team as a full stack Developer. Seeking opportunities to apply my expertise in HTML, CSS, JavaScript, and modern frameworks like React and NEXT, Committed to delivering user-centric solutions that enhance usability and exceed business objectives in a collaborative environment.

### RELEVANT WORK EXPERIENCE

---

#### Infaqe 2021 – Present Full Stack Developer

- Implemented Stripe and Pay Good payment gateways, ensuring secure and seamless donation and transaction flows..
- Developed and integrated Meta Conversion API to track user actions and improve campaign attribution for a nonprofit B2B platform.
- Enhanced the platform's user interface for better usability and responsiveness, resulting in improved user engagement.
- Developed code that deals with large data sets by rendering components on UI and optimizing calls to minimize HTTP requests by 60%.

#### Tronsit Solutions 2023 – 2024 React.js Developer (Part-time)

- Built and maintained a medical ERP system in React, enabling features like appointment scheduling and patient-doctor management..
- Integrated .NET-based backend APIs to ensure seamless data flow between frontend modules and core hospital systems.
- Collaborated with cross-functional teams to implement secure, user-friendly interfaces for doctors, patients, and administrators.

#### Rising Technology 2021 React.js Developer

- Developed a dynamic quotation builder in React, allowing users to configure and select products for custom quotes.
- Collaborated closely with the Saudi client to tailor features based on regional business needs and workflows.
- Optimized UI components for responsiveness and performance, improving the overall user experience and client satisfaction.
